Turn to the Experts.™

The Edge® thermostat is the new ultra-slim control from Carrier.

At only .8" thin, it beautifully combines advanced technology with sleek design. Custom door* options add to its appeal as a welcome addition to any home. And its Exp[™] technology allows you to set, store and update your comfort and energy-saving preferences. Just another example of what makes Carrier's innovations so outstanding.

Ask your Carrier dealer about the new 2007 line of Edge® thermostats.

* Custom doors sold separately.
† Exp[™] accessory (expansion port and memory card) sold separately.
